Flasco In Sioux City Disgusts Patrons of Wrestling Game; Referee Pulls Queerest of All Queer Stunts In His Decision and Subsequent Reversal; the Part Stecher Played in Big Sell Not Clearly Shown.

This finero, following Dr. Rol-ler's exposure of the socialied sport, no doubt will result in the members of the streating trust and their tools below harred out of New York and all other eitles in the east.

Trim For Tourney

CHICAGO, Ill. March 8.—One of our have the prestice of a decision on most prominent sport drifter says that Joe Setcher has now julced the contents of arch fakers in wrestling. Hitherto Stecher had not been implicated in anything that actually scaked with the animal scent of the circus. but his flasco with Ebyazko in Sieux City shows that the scissors expert, like the others, has led himself to become implicated in one of those things which is knocking professions restling deader than a door nail. The affair in lowa looks like the Fifth Boxers In

The affair in lowa looks like the last straw on the carmol's back as far as the game in the west is convened. So palpable a frameny as the one in Stour City is likely to have the effect of opening the eyes of the suit and make impossible a repetition of the sport like patrons of the sport in the west and make impossible a repetition of the fake. It has been in the far west that the wresting fabrars have reaped their richest harvest, but it looks as though that saction of the country po longer will be a pasture for the stricksters.

The Stecher-Zbyseko 'concert' has the finitest of fishy looks. It was achequied as a finish affair, but at the end of two hours was stopped and the referree announced that it was a Graw. The next day the official experienced a change of heart and department in favor of Zbyseko. There is clared in favor of Zbyseko.
